

UPLOAD YOUR VIDEO AND OBTAIN THE EMBED CODE

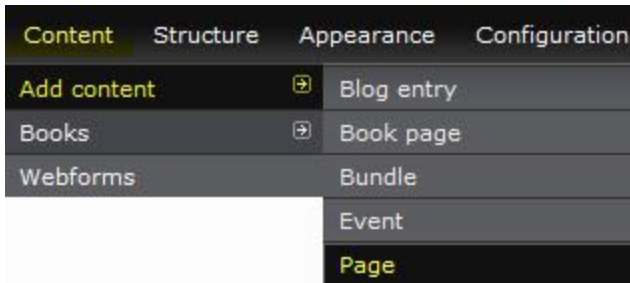

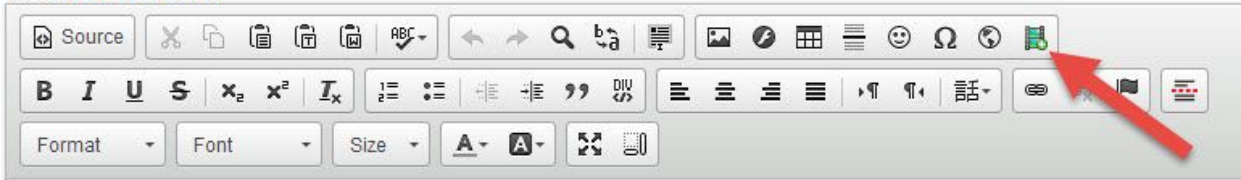

The image shows a sequence of steps to generate a YouTube embed code:

- Step 1:** Access the YouTube Help page for "Upload videos".
- Step 2:** Click the "Share" button (labeled 'a').
- Step 3:** Click the "Embed" button (labeled 'b').
- Step 4:** Click the "SHOW MORE" button (labeled 'c') to expand the embed options.
- Step 5:** Select the video size (420 x 315) and check the options: "Show suggested videos when the video finishes", "Show player controls", "Show video title and player actions", and "Enable privacy-enhanced mode" (labeled 'd').
- Step 6:** Copy the final embed code (labeled '3').
- Step 7:** Paste the embed code into a Notepad file named "YouTubeVideoCode" (labeled '4').

PLACE YOUR EMBED CODE ON YOUR SITE
