CONFIGURE THE MENU BLOCK

1. **Block title**
   Override the default title for the block. Use *<none>* to display no title, or leave blank.

2. **Administrative title**
   This title will be used administratively to identify this block. If blank, the regular title will be used.

3. **Menu**
   - **Main menu**
   The preferred menus used by *<the menu selected by the page>* can be configured.

4. **Starting level**
   - **1st level (primary)**
   Blocks that start with the 1st level will always be visible. Blocks that start with a deeper level will not be visible.

5. **Maximum depth**
   - **Unlimited**
   From the starting level, specify the maximum depth of the menu tree.

6. **REGION SETTINGS**
   Specify in which themes and regions this block will be visible.

   - **CorporateClean (default theme)**
     - **None**
   - **Navigation**
   - **Search area**
   - **Highlighted**
   - **Content**

7. **Save block**
