

## SCENARIO 5: 15% OFF ORDERS \$100 OR MORE APPLIED AUTOMATICALLY

In this scenario, you are creating a coupon to apply 15% off of orders \$100 or more for all customers automatically.

**Coupon name \*** 1  
15% off \$100+

**Coupon code \*** 2  
Save15%

Coupon codes cannot be changed once they have been created.

### ▶ BULK COUPON CODES

**Coupon is active.** 3  
Only active coupons can be used at checkout.

**Discount \*** 4  
15%

Three discount types are possible:

- Fixed value discount; enter "15" for \$15.00 off.
- Percentage discount; enter "15%" for 15% off.
- Set product price; enter "=15" to make all products \$15.

**Apply discount to** 5  
 Order subtotal 

**Maximum number of redemptions (per code)** 6

If set, the coupon can only be used this number of times. For bulk codes, this number applies to each code.

**Maximum number of redemptions (per user)** 7

If set, each user can only use the coupon this number of times.

### ▼ MINIMUM ORDER LIMITS

**Minimum order total** 8

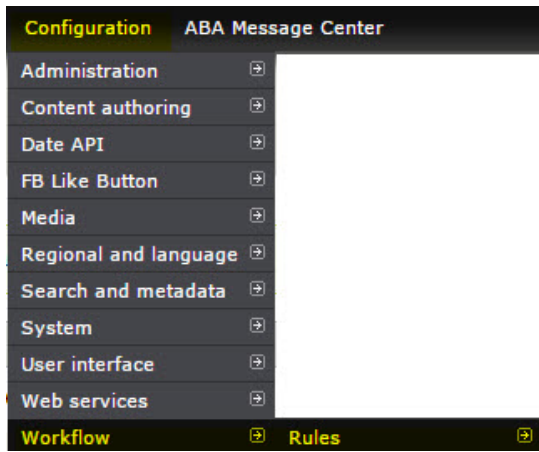

\$

If set, the subtotal of products must be at least this amount for the coupon to apply.

Save coupon 9

You have now created your coupon but still need to add rules and conditions to make it apply automatically.
