#### Other Indie Favorites

**Unsaid: A Novel, by Neil Abramson (Center Street, \$23.99)** "In a story reminiscent of *The Lovely Bones*, a deceased veterinarian narrates the evolution of her lawyer husband who has been left behind with boundless grief, an unmanageable menagerie, and an unwinnable case following her death. This is a book for animal lovers and those who live with animal lovers; for those who love a good courtroom drama and for cynics who imagine all lawyers to be soulless; and for those interested in animal ethics, who wonder if there are more communication possibilities to be developed with higher primates. Unforgettable!" —**Darwin Ellis, Books on the Common, Ridgefield, CT**

**What Language Is: And What It Isn't and What It Could Be, by John McWhorter (Gotham, \$26)** "This is a light-hearted investigation into how linguists view language. From languages that change tone for different tenses to languages that do not have any regular verbs, this is an entertaining foray into what language is and what it is not. I look forward to reading more from this talented linguist." —**Fran Wilson, Colorado State University Bookstore, Fort Collins, CO**
