## Other Indie Favorites

**Battleborn: Stories, by Claire Vaye Watkins (Riverhead, \$25.95)** "This extraordinary debut collection is the short story form at its finest. Linked by setting, in the tradition of Annie Proulx, these 10 brave tales create a new mythology of the American West in a way that you've never experienced it before: From the desperate gold rush of the 49ers, to a tragic experience in a casino hotel, to the small, safe world a heartbroken woman creates in her bathtub. The writing is impeccable, the characters complex, and the stories full of heart and humanity. Do not miss this book!" —Alise Hamilton, Andover Bookstore, Andover, MA

**The Long Walk: A Story of War and the Life That Follows, by Brian Castner (Doubleday, \$25.95)** "This meditation on combat and its aftermath is powerful, exhilarating, and sad, all at once. Castner relates wartime experiences that defy belief but are all too real and quickly remove any romance from the world of violence. Like Karl Marlantes and Benjamin Busch, Castner brings our current wars right onto our doorstep and shows that they are always with all of us, not to be hidden away." —Bill Cusumano, Nicola's Books, Ann Arbor, MI
