### Another Indie Favorite

**The Bees: A Novel, by Laline Paull (Ecco, \$15.99)** "This book is completely amazing. Paull uses real bee behavior as the basis for a tale of complex hive society, complete with a religion, a caste system, and threats from the outside world. The heroine, Flora 717, is an abnormally large and intelligent bee. Her size and strength give her opportunities to work at a variety of jobs, and as she begins to uncover the dark secrets of the hive, Flora makes a decision that could change the future of her entire hive. Well-crafted and filled with intrigue and action, this is a brilliant, thought-provoking, and completely original debut that does for bees what Richard Adams did for rabbits in *Watership Down*." —**Flannery Fitch, Bookshop Santa Cruz, Santa Cruz, CA**
