For Ages 9 to 12

Rebel Genius, Michael Dante DiMartino (Roaring Brook Press, \$16.99) "Under the reign of Nezerra, all artists have been sundered from their genius spirits and left to waste away. Giacomo, an orphan who desperately wants to be an artist, finds himself with the dangerous blessing of a genius spirit and must flee for his life. This magical adventure ties together art and powerful magic with the rich storytelling we would expect from DiMartino, the co-creator of the award-winning Nickelodeon series *Avatar: The Last Airbender*." —**Laura DeLaney, Rediscovered Books, Boise, ID**

For Teen Readers

Our Chemical Hearts, by Krystal Sutherland (G.P. Putnam's Sons Books for Young Readers, \$17.99) "Fans of John Green will gobble up this top-notch writing from a new author to watch. Yes, it's another 'doomed love' story, but Sutherland has several underlying themes that undercut the clichés usually found in teen romances, most notably 'you're not in love with who I am, you're in love with your fantasy of who I am.' I have a very short list of YA authors that I drop everything to read and Krystal Sutherland is now on that list." —**MaryJo Schimelpfenig, Powell's Books, Portland, OR**
